## Skills

### PROFICIENT (EXPERTISE)

Java

C++

HTML

SQL

JavaScript

CSS

ASP.NET

PHP

Node.js

Git

SQL Server Management  
Studio (SSMS)

Python

### TECHNOLOGY SUMMARY

ETL development

Ubuntu

MongoDB

PostgreSQL

Python

SQL Server Management  
Studio (SSMS)

NetBeans IDE

Eclipse

Linux

Windows

### COURSES COMPLETE

Software Quality

Artificial Intelligence

Networking

Principles of Software  
Engineering

Project Management

Database Management  
Systems

Object Oriented  
Programming

Digital Systems

Software Design

Stats & Probability for  
Engineers

Web Development

C++

Visual Basic 6

## Education

### University of Ontario Institute of Technology

Software Engineering (B.Eng.) Sep 2015- June 2019

- Third year software engineering student offering a strong foundation in software engineering and programming principles across multiple platforms.
- Seeking a 12 months full time job or a coop/internship of any length starting May 2018.
- Experienced in object-oriented programming; developing, testing and debugging code; designing interfaces; and administering systems and networks.
- Quickly learn and master new technologies; successful working in both team and self-directed settings.

## Employment

### Surveillance Plus

Camera Technician

Pickering, Ontario

Sep 2016 to Jun 2017

- Mount and fasten control panels, door and window contacts, sensors, or video cameras and attach electrical and telephone wiring to connect components.
- Install electrical components, equipment, or systems.
- Position equipment using hand tools, power tools, or heavy equipment.

### Home Depot

IT Helpdesk

Toronto, Ontario

Aug 2017 to Sep 2017

- Provide bilingual networking and desktop support, account maintenance and printing assistance to students and faculty.
- Troubleshoot and resolve complex technology problems as the “go-to” person for IT issues.

### Tim Hortons

Storefront/Baker

Ajax, Ontario

Jul 2013 to Jul 2016, Jul 2013 to Jul 2016

- Excelled within service-oriented positions (concurrent with college studies), delivering premium customer service and attracting repeat customers.
- Change tills
- Always in communication with customers and other team members

## Projects

### Train Ticketing System

Feb 2017 to Mar 2017

This project is based on a ticket booking system and its main aim is to provide a secure and easy way to book train tickets. Users may choose their class, age category and destination. The program will then calculate all costs and print it out on a receipt.

Uses...

- Front end (C# and ASP.NET)
- Back end (MS Access and SQL)

### Personal Website

Apr 2017 to Apr 2017

This website was built thoroughly on my own to refresh my web development skills.

### makerTruck

Nov 2017 to Dec 2017

The makerTruck program is an engineering outreach program by UOIT, sponsored by General Motors. Through this program highschool and elementary school students are exposed to various engineering related workshops to familiarize them with engineering concepts.

## Awards

Ontario Secondary School Diploma (OSSD) · French Immersion Certificate

Jun 2015

## Volunteering

Local Hack Day at UOIT · Organizer

University of Ontario Institute of Technology

First Hackathon event ever held at the university.
