Projects

Train Ticketing System

Feb 2017 to Mar 2017

This project is based on a ticket booking system and its main aim is to provide a secure

and easy way to book train tickets. Users may choose their class, age category and destination. The program will then calculate all costs and print it out on a receipt.

Uses...

- Front end (C# and ASP.NET)
- Back end (MS Access and SQL)

Personal Website

Apr 2017 to Apr 2017

This website was built thoroughly on my own to refresh my web development skills.

Awards
